

## **Reminder: Sand Mine Community Meeting This Saturday (2/21)**

Hi everyone,

The sand mine application is still active at the County level and State-level developments are ongoing. This is not settled.

Over the past several months, we have seen significant shifts, from the Special Master ruling, to the cancelled BOCC hearing, to State involvement, to new activity and unanswered questions surrounding groundwater and nearby wetlands. Things have continued moving, even when it hasn't been visible.

It affects residents across Citrus County and beyond. Whether you live inside or outside Pine Ridge, you are welcome and we hope to see you. This is a county-wide issue, and everyone is encouraged to attend.

That's why we're meeting.

**This Saturday, February 21  
10:00 AM – 12:00 PM**

**Pine Ridge Community / Equestrian Center  
5680 W Pine Ridge Blvd  
Pine Ridge, FL 34465**

Directions:

When you drive in, follow the road all the way to the backside of the first set of tennis courts to the larger parking lot area. Park there and look for the Community Center side entrance.

We will share clear updates on what has happened, where things stand now at both the County and State level, and what this means going forward.

If you've been following closely, or if you're just trying to understand what's really going on, this meeting is for you.

If you have questions, this is the place to ask them.

Showing up matters. We look forward to seeing you!
